

# ULTRA-TECH™ LIGHTING

## SNOW-BRIGHT™

### SNBT-HB-300WB2

- Snow-Bright™ LUMENTEC™ tuned spectrum
- Color Rendition Index (CRI) > 85
- 100,000 hour life cycle
- 110V ~ 277V auto-sensing ballast
- Instant strike/re-strike
- Nano-reflector technology
- VARI-BEAM™ focus technology
- Powder-coated all-weather aluminum
- IP65 rated WF2 anti-corrosion grade
- 150mph wind resistance

The Snow-Bright™ 300-Watt round floodlight is ideal for all types of slopes, tubing parks, cross-country trails, snowmobiling tracks, beginner areas, and even parking lots. The unique full spectrum full diffusion lamp is capable of replacing 1000W high pressure sodium and metal halide fixtures for energy savings of up to 70%. Unique Vari-Beam™ technology allows changing the focal length to provide precision cut-off and minimal light pollution. Mercury is a solid encapsulated amalgam that makes Snow-Bright™ environmentally friendly and safe. No special handling is required. No hazardous material disposal is necessary.

Snow-Bright™ light actually reflects internally within snow crystals to provide stunning resolution with very low energy consumption. Instant strike means never having to wait for a warm-up or cool-down. The SNBT-HB-300WB2 will not disturb nocturnal wildlife such as owls and moose. Equally important, it is a neighbor-friendly fixture that can be focused away from surrounding buildings and homes. Snow-Bright™ lights are not affected by temperature.
